THE SENTINEL.

JOSIAH TURNER, Jr., EDITOR.

FRIDAY, OCTOBER 22, 1869.

GRIEF OF PIKE.

Pike, in his agony of grief, cries, "How long! O, Lord, how long!" then he gives vent to his feeling of deep anguish over the hanging of old Jeff and Ned Morrow, who were hung in Orange last week, for burning the barns of three peaceable citizens.—James Morrow, a peaceable citizen, had to resort to the law and get a writ of ejectment to put old Jeff and his family out of his house. Frank Minor was the officer, William Jones was summoned to assist in executing the law. Old Jeff was peaceably put out of the house by process of law. For this the barns of Messrs. Minor, Jones and Morrow, were burned, with their crops of wheat, horses and mules, by old Jeff and his sons. For the burning old Jeff and his boys were hanged. One was taken out of jail and shot. Jones, poor fellow, had not the fortitude to bear his loss; a wife and six little children to support and his year's provision for them gone, was more than he could stand, to free himself of such neighbors, he committed suicide soon after the burning of his barn and property.

Pike is sorely grieved over this hanging, and, like "uncle Toby," drops a tear in sympathy for the wives and children of the black men, but he has no tears for the widow and little ones of Jones, no, they are white and don't belong to the League.—Pike's grief is very pretty, but it is all spoilt by another article which appears in the same number of the *Standard*, giving an account of the late shooting of Mr. Haughton, in Chatham, by the Leagues, Pike says, "We commend the example of those brave colored men to the colored men of other Districts afflicted with Ku Klux. If it is once followed the evil will be soon stopped." This is fighting on Pike's line. He said some time ago, "We tell those who are assailed to fight, to resist force with force and murder with death."

We are commanded by one greater and better than Pike, if "smitten on one cheek to turn the other." We advise all men, for the redress of all grievances, to appeal to the law. Heretofore the law could and did protect them in the enjoyment of life, liberty and property; when the law fails to protect, it is the fault not of the law but of those who execute it. The truth is, the State has been given over to the godless and the lawless, who are more intent on plundering the Treasury and ruling by secret societies, than maintaining the peace and good order of society.

PROCLAMATION.

In our advertising columns will be found a proclamation of Gov. Holden's, threatening to declare four counties of the State, to wit: Jones, Lenoir, Chatham and Orange, in a state of insurrection. He also proclaims that "in a matter like this there should be no party feeling." We grant you there should not be. Yet the Governor, who is President of the Leagues, shows his party feeling even in the proclamation.—He makes a one sided proclamation. He recounts only the offences of one of the opposing secret associations. He alludes to the killing of Colgrove and Shepherd, his militia Colonel, and the hanging of negroes in Orange, who were hung for barn burning and threatening to commit a rape upon a lady. If there was no party feeling in the proclamation, the Governor would have said, "whereas, Col. Nethercut and the whole Foscue family, including father, mother and child, have been murdered by members of the League; and whereas, in return the Ku Klux have murdered Lesguers, and whereas, members of the League in Orange have threatened, attempted and actually committed rape, and one member of the League convicted, and sentenced to suffer death, did escape from jail, and when another member did threaten rape upon a lady if she did not comply with his demands, and for it was hung, and whereas, the members of Leagues did burn three barns with grain, horses and mules, and for it they were hung, Now, therefore I, W. W. Holden President of the Leagues, do dissolve all secret Societies, known as Leagues, and I do solemnly call upon the President of the Ku Klux to imitate my example, and dissolve his secret, political association known as the Ku Klux." This would have shown that there was no party feeling in the proclamation. The Governor has studiously avoided allusion to the crimes committed by the members of this secret, oath-bound, barn burning association over which he has presided for more than three years. The President of the League has tried to put down the secret society which has been organized to counteract his own, but he has tried in vain. The result of your last call for troops, was that your own troops murdered and cut each others throat's. We call for your proclamation as President of the Leagues, to dissolve them and thereby restore order to society and the State, whose quiet you have disturbed, by your rape committing, barn burning associations. If you will not do this, have Coleman, the late Attorney General, recalled from Stetten, and make him President of the Leagues. The presentment of the late Attorney General by the Grand Jury, of Catawba, for an assault with intent to rape a married woman, gives him claims for the Presidency of the Leagues, which we frankly admit no other man in the State out of jail, possesses.

THE GOVERNOR AND BILL HUSKEY ON THE FAIR GROUND.

Henry H. Patterson is a peaceable citizen of Orange, living near Chapel Hill. On Wednesday, with his brother in-law, Mr. Fendall Hogan, he entered the Fair Groud; Bill Huskey, the Governor's commissioned detective, came up to Mr. Patterson cursing the Ku Klux and all who sympathised with them. He was evidently cursing at Mr. Patterson. Mr. P. pretended not to hear him. He did not speak to Huskey. Mr. Hogan is a delicate man, in fact, has been an invalid all his life. Huskey walked up and put his finger in his face and said, "you d—d rascal, you kept me out of my seat," upon this Mr. Patterson stepped between his invalid brother in-law and the Detective, at the same time drawing a pocket knife. Huskey desisted. Mr. P. made no effort to use his knife, he was only on the defensive, determined to keep the Governor's friend and Detective at a proper distance. Huskey ran immediately to his "cussing beloved," the Governor, he found him near the stand, shook him heartily by the hand and informed him that Mr. Patterson had drawn a knife upon him. After the occurrence the Detective, Huskey, had Mr. P. arrested, brought before the Mayor and bound over to Court. No wonder so few gentlemen would shake hands, on the Fair Ground, with the Governor. If such a slight admits of compensation, the Governor was compensated by the hearty shake which Huskey and the "blue bellies" gave him.

At a Quarterly meeting at Orange Church, this Detective drew a pistol on Mr. Addison Madry as he came out of the house of Mrs. Brockwell, which is near the Church door. Mrs. Brockwell went between the men, begging young Madry to run. No, said Madry, "I am not armed but I shall not run." Huskey left for Raleigh the next day. We might add that Huskey was indicted for larceny in Orange, but a knowledge of it might elevate Huskey in the estimation of the Governor, and cause his promotion on the Detective staff, and, therefore, we forbear, and say with pious Pike, in his agony, "How long! O, Lord, how long!"

THE FAIR—THURSDAY.

The rain made it rather unpleasant on the Fair Grounds yesterday, but the attendance was, notwithstanding, much larger than on Wednesday, there being not fewer than six thousand persons within the enclosure during the day. Ladies ventured out despite the threatened damage to skirts and bonnets, and we could not help thinking while looking at the dear creatures braving the mud, slop and lob lolly, that next week's washing day will be a heavy affair in many families.

Owing to the ugliness of the day, the Annual Address of Prof. Kerr, which was to have been delivered at 11 o'clock, was postponed to the same hour to day.

The trial of speed on the track was the principal attraction, and although the track was very heavy, some of the trotting, pacing and running was very good.

The first trial was a pacing match, half mile heats, best three in five. There were three entries, T. F. Lee's chestnut horse, Deceiver, S. R. Hunt's bay mare, Mary, and Wynne & Co's., black horse, Mike. The Mare took the purse in three straight heats, time, 1.24½, 1.26½, 1.24½.

The next was a trotting match half mile and repeat, best two in three. Dr. W. R. Capehearts entered white horse Prince, G. W. Wynne & Co., bay horse, Dick, and C. L. Moore, white mare, Mollie. The bay horse won the first heat, time 1.8½; Prince won second and third, time, 1.6½, 1.7½.

Then came the most exciting trial of the day, the trotting race to harness, mile heats, best three in five. There were three entries, T. Paxson entered bay horse, Twist, N. V. Denton, brown horse, Brown Dick, and T. F. Lee, bay pony, Dick. All lead off finely, and the excitement arose to a high degree. Twist took the prize in three straight heats, but Brown Dick pushed him close. Time 2.54½, 2.56½, 3.2½.

The next, and last for the day, was a dash between L. Staton's fine stallion, Gen. Jno. Morgan, and Col. Hayes' bay horse, whose name we did not learn, half mile and repeat, which was won easily by the Gen. Morgan, who is a three-quarter Boston, and thought to be the fastest quarter horse in the South, if not in the Union.

The Committees were busy yesterday, examining and deciding on the merits of articles in their several departments, and preparing their reports to be read out to day.

We had intended to give to-day a somewhat extended notice of the animals and fowls on exhibition, but the terribly damp aspect of the weather and muddy condition of the ground deterred us from the undertaking. The show of horses is very good, under the circumstances, so is that of hogs. The number and quality of cattle is not so good as we have seen it in former days, yet there are some very fine animals in this line. The show in sheep, also, is rather meagre.

There are some beautiful fowls, the game predominating. The variety on exhibition is, however, rather limited.

We append a few articles that had before escaped our attention, to the partial list heretofore given. And prominently among these, is a large number of cheeses from the Elk Mountain Factory, Buncombe county. These cheeses are of various sizes, of beautiful color, and equal in all respects to the best Northern cheese that comes to our market. Visitors to day should be certain to see and examine these specimens of North Carolina enterprise.

We noticed a number of earthern flower-pots, pipes, &c., of North Carolina manufacture, but did not ascertain the name of the exhibitor.

Mr. E. Morris has on exhibition a beautiful walnut bureau and a mahogany wash stand, made at his establishment in this city.

Mr. W. R. Hutchings, of this city, exhibits two superior saddles, of his own make. They cannot be surpassed anywhere.

One of the most simple, yet ingenious inventions in the Fair, is a newly patented Rat-trap, by Rev. D. R. Bruton, of Thomasville. It lays in the shade everything else in the way of a rat trap ever invented, not excepting Punsy herself.

We noticed in Floral Hall some interesting paintings by the most celebrated masters, exhibited by Gen. D. M. Barringer.—Among them we noticed a Magdalen, by Giordani, a Bacchante by Sebastiano, a Christo, with cross &c., by Murillo, a Virgin and Child, with flowers, by Reubens, Fish Pickerel, by Turner, and others by European masters. These were exhibited as works of art merely, and not to compete for premiums, and attracted much attention.

We cannot extend the list further to-day, but we have a whole blank book of notes to draw on for the future.

EDUCATIONAL MEETING.—We are glad to learn that quite a number of the Educators of the State, assembled at the Deaf and Dumb and the Blind Institution, in this city, on yesterday afternoon, pursuant to previous notice, for the purpose of organizing a State Educational Association. After an interchange of views on the subject which called them together, the meeting adjourned to 9 o'clock this morning, at the same place, and all persons in the city who feel an interest in the cause of education, are invited to attend.

This is one of the most important subjects that can engage the minds of our people at this time, and we hope it will receive that attention which its importance demands. Great results depend upon the co-operation of enlightened teachers in forming an organization to give direction and efficiency to the efforts to educate our youth; and we hope, therefore, that all who can do so, even at some sacrifice of convenience, will attend the meeting this morning.

SCUPPERNONG WINE.—We have already briefly noticed the exhibition of various kinds of fruits, wines &c., offered at our Fair by Mr. Louis Froelich, of Kenansville, Duplin county. On yesterday, Mr. Froelich's fruits and wines were examined by Hon. J. B. Dodge, Statistician of the Agricultural Bureau, Washington City, and Wm. Saunders, Esq., Experimental Gardner, of the same city; who, after testing and tasting his fruits and wines pronounced them very superior, especially the wine made from Mr. Froelich's improved Scuppernong grape, which they pronounced superior to any American wine they ever tasted, and Mr. Saunders immediately ordered a considerable quantity of it for his own use.

The scuppernong, is, indeed, *the* grape for Eastern North Carolina, at least. It never rots, nor do s the crop ever fail.—Wine of superior quality is made from it without any addition of saccharine matter or spirits, and there can be found no better table fruit anywhere.

Mr. Froelich informs us his vineyard is only five years old, and he makes from it, this year, about twenty barrels of wine, but that he is increasing his vines, and will double the quantity of wine every year, for some time.

AGRICULTURAL MEETING LAST NIGHT.

After the reading and approval of the minutes, Mr. N. W. Woodfin, of Buncombe, read an interesting Essay on the productions of the Dairy in Western North Carolina, which was well received and was followed by an animated discussion of the subjects of which it treated.

Messrs. Dodge and Saunders, of the Agricultural Bureau, Washington, by invitation of the President, addressed the meeting, giving much useful information on the subjects of fruit growing, wine making and kindred subjects.

Gen. D. M. Barringer followed in some brief remarks on our State enterprises and prospects.

Mr. C. W. Westbrook of Warren, then read an Essay on fruit culture, and was followed by Mr. L. Froelich, of Kenansville on the same subject. Both papers were eminently practical and instructive.

An Essay was also read by Mr. Shultz of Salem, on the Bee culture.

We expect to publish these essays as soon as we can make room for them.

The Society then went into an election of officers, when all the present officers were re-elected.

On motion of Col. Heck, a resolution was adopted, to elect officers hereafter by ballot.

The special committee on Mr. Foster's type setter reported in favor of granting the inventer a medal and special premium. The proposition in regard to the premium was, on motion, referred to the Executive Committee.

The Society meets again to-night at 7 o'clock.

MASTER DICKEY TILLERY, gave an interesting display of his wonderful oratorical powers, at the Senate Chamber last night. The Hall was well filled and every one was struck with the unrivaled oratorical powers of this juvenile prodigy.

ON DIT, that the R. & G. Railroad Company are considering a proposition to rent or lease the W. & W. Railroad from Goldsboro' to Weldon.

A Kentucky paper proposes Richard M. Spalding for United States Senator in place of Mr. McCreery. Another names John Quincy Adams King.

A photographer in the Strand, London, has issued "a photographic likeness of our Saviour." He says it is copied from the portrait carved on an emerald by order of Tiberius Cæsar, which the Emperor of the Turks afterward gave, out of the treasury of Constantinople, to Pope Innocent VIII., for the redemption of his brother, taken prisoner by the Christians.

A PROCLAMATION,

By His Excellency, the Governor of North Carolina.

EXECUTIVE DEPARTMENT OF N. C.
RALEIGH, Oct. 20th, 1869.

Notwithstanding the existence of peace and good order in other portions of the State I regard it as my duty to announce that in four Counties, to wit: Lenoir, Jones, Orange, and Chatham, there is, and has been for some months past, a feeling of insubordination and insurrection, insomuch that many good citizens are put in terror for their lives and property, and it is difficult, if not impossible, to secure a full and fair enforcement of the law. Information has reached, and continues to reach the Executive, that in the above Counties a state of feeling exists which is totally incompatible with the free exercise, by the friends of the Government, of that independent expression of opinion, and that freedom of action, which is the birth right of every American. In Lenoir and Jones various thefts and murders have been committed; jails have been forcibly opened and the prisoners taken thence have been murdered; an officer of the law has been waylaid and slain on the public highway, and another officer of the law has been slain in the open day while engaged in his ordinary avocations. Private dwellings have been entered and the occupants terrified, and some of them whipped or murdered; others have been shot or hanged or cruelly beaten; and the result is that thus far the civil law, though firmly asserted and maintained, has not been adequate to bring the insubordinate and the wicked to condign punishment. In Chatham the jail has been forcibly opened and a prisoner, confined under sentence of a Court of the United States, has been liberated and is now at large. In Orange the jail has been forcibly opened and two prisoners (colored men) taken out and shot one of whom has died of his wounds. Three other colored men have been hanged until they were dead, one has been cruelly mutilated, and others have been whipped. White citizens have been injured, insulted and terrified. The University of the State, sacred to the cause of learning, has been repeatedly invaded by bands of armed men in disguise on horse back, and acts of violence have been there perpetrated on unoffending citizens and officers of the law. Many of the colored people in these Counties, and no inconsiderable portion of the white people, though obedient to the law and good citizens, are living under constant apprehensions that they may fall victims at any moment to the malice of their enemies.

It is made my duty under the Constitution "to call out the militia to execute the law, suppress riots or insurrection and to repel invasion." I deeply regret that it seems necessary to resort to the military power to enfore the law and to protect the citizen. But the law must be maintained. I have waited in vain, hoping that a returning sense of reason and justice would arrest these violations of the law. But these evils, instead of diminishing have increased, and no course is left to me but to issue this proclamation of admonition and warning to all the people of the Counties mentioned, whether engaged in these flagrant violations of law, or whether indifferent or insensible to what is occurring in their midst. I now call upon every citizen in the Counties aforesaid to aid the civil power in a fearless enforcement of the laws. No set of men can take the law into their own hands. Every citizen, however humble, or whatever his color, has a right to be at peace in his own house, and cannot be taken thence except by due process, and cannot be punished save by the law. If there be those who counsel resistance to established authority, such persons are traitors, and should be punished accordingly; if there be those who, disguised or masked, enter the dwellings of others by force and commit acts of violence, such persons are guilty of felony, and should be punished by hard labor in the penitentiary; if there be those who, without precept or order, hang, or shoot, or otherwise deprive any one of life, such persons are murderers, and should be punished accordingly.

I now give notice in the most solemn manner, that these violations of law and these outrages in the aforesaid counties, *must cease*; otherwise, I will proclaim those counties in a state of insurrection, and will exert the whole power of the State to enforce the law, to protect those who are assailed or injured, and to bring criminals to justice. In a matter like this there should be no party feeling. It is my fixed purpose to protect every citizen without regard to his antecedents, his color or his political opinions; but to do this the law must be sacred, must be spread over all alike, and must be inflexibly maintained.

Done at our City of Raleigh, this the 20th day of October, in the year of our Lord, one thousand eight hundred and sixty-nine and in the ninety-fourth year of our Independence.

W. W. HOLDEN, Governor.

By the Governor:
W. R. RICHARDSON,
Private Secretary.

STOCKHOLDERS MEETING.—Let the Stockholders of the North Carolina Rail Road remember that the 11th day of November is the day for their meeting. Let those who do not attend, send their proxies to such friends as will not sacrifice the road by leasing it to the Raleigh & Gaston Company for $240,000, when other Roads will give $500,000 or even more.

THE LECTURE AT TUCKER HALL LAST NIGHT.—We had heard much of the humorous power of Prof. Hewlett, but the half had not been told us. He is absolutely the most entertaining and mirth-moving lecturer we have ever heard, save John B. Gough, who perhaps has no equal in the world. There was a good audience out last night to hear the Prof. hit at the times, from *morus multicaulis* to the Grecian Bend, notwithstanding the exceeding inclemency of the weather, and we confidently predict an overflowing house to-night to hear this inimitable delineator of human nature, take off Irish character in his famous talk entitled, The Irish Stew, or Lights and shades of Irish character.

HELPS TO VISION.—Dr. Bernhardt requests us to say that he will remain but a short time in Raleigh, and that those who may desire glasses to assist the sight would do well to call on him immediately. His success has been encouraging, many have availed themselves of his services, whose testimonials to the great benefit they have received, could be given by scores and hundreds. It is better to "take time by the forelock" and supply yourselves with glasses while an opportunity offers, than to regret it when it is past.

Room and office at the Yarborough House.

His Excellency, Governor Holden, has set apart Thursday the 18th of November next, as a day of Thanksgiving.

Col. Tucker has arrived in the city with another lot of splendid Fall and Winter goods. Go and see him at his magnificent store.

MIND YOUR EYES.—L. M. Davis, the North Carolina optician, who fits glasses to all eyes, will be in Raleigh on Tuesday, and remain during the Fair. His glasses are good as well as cheap.

He may be found at the Yarborough House, Room 21.

NEW PAPER.—We have received the first number of the "Ridgeway Press," published at Ridgeway, N. C., by Thomas H. Hughes, at $2 per year. It is a very large, well printed paper, and will be devoted to moral, interesting and useful information.

EXHIBITION AT THE D., D. & B. INSTITUTIONS.—We omitted, inadvertently, to notice, that quite a large crowd gathered at the Institution for the Deaf and Dumb and the Blind, on Wednesday afternoon, on the invitation of the Principal, W. J. Palmer, Esq., to witness an exhibition of the pupils, and the peculiar method of instructing them.

The exercises consisted in vocal and instrumental music, reading and mathematical questions by the blind, and compositions and sign language by the Deaf and Dumb. The audience testified their approval by frequent applause. The exercises were closed by a beautiful song by Messrs. Pierson and the Tremaine brothers, and the recitation of "Lochiel," by Master Dickey Tillery, the juvenile orator from Halifax County.

The Principal stated that there were 130 pupils already in attendance, and application on file for the admission of 50 more.—Long may our State continue to sustain this noble institution, which is doing so much for the children of silence and darkness.

We learn from the Charlotte *Observer* that the annual meeting of the Stockholders of the Wilmington, Charlotte & R. R. R. was held in that city on Wednesday. Col. W. R Steele, of Richmond, was called to the Chair:

The President of the Company submitted his report to the effect that no certificate of stock had been issued to the State for her last appropriation, and his report being adopted, the representative of that supposed stock was excluded from participation in the meeting.

The directors appointed by the Governor were recognized as the *simon pure*, and a copy of a decree of the Wake Superior Court was read perpetually enjoining Mr. Harris from appointing directors on the part of the State. Strange to say that gentleman had not heard of such a decree before.

A MELANCHOLY AFFAIR.—We are sorry to have to record a sad accident which occurred last night, and resulted in the death of one of the "Cuba."

About 9 o'clock one of the seamen sprang from a fourth story window of the Seamen's Home, were the crew of the "Cuba" were stopping, and after lingering for two hours died, his skull having been fractured by the fall.

Around his death bed stood many of his comrades, and we noticed Commodore Higgins and Captain Ingraham also present.

The Rev. Mr. Patterson was called in, but came just as he breathed his last, and offered up a prayer over his remains—all present kneeling around the humble cot which held their dead shipmate, and the sobs that came from many a brave man proved that the deceased was not unloved.

We hear that the funeral will take place at 3 o'clock this afternoon, the officers and crew of the "Cuba" following the remains to the grave.—*Wil. Journal, 20th inst.*

An Arkansas editor appealed to the "disciples of sience" in his town to celebrate the "forthcoming Humboldt cemetery."

The Wilmington Journal says that diphtheria is prevailing to some extent among the children in that city, and gives the following receipt of a sure remedy:

Take warm oak or hickory ashes, mix with salt brine from pork or beef, make a poultice of same, sprinkle with camphor, and apply to the throat externally. Make a wash of red oak bark, in which put a small quantity of camphor, and gargle five or six times a day.

A CONCAVE CONVEX ELLIPSIS,

Admirably adapted to the organs of sight, and perfectly natural to the eye, affording altogether the best artificial help to the human vision ever invented. Used only by

MORRIS BERNHARDT,

SPECTACLE & OPTICAL MANUFACTURER.

THE ADVANTAGES of these Spectacles over all others are:

1. **They can be worn with perfect ease** for any length of time at one sitting, giving astonishing clearness of vision, by candle or any other artificial light, comfort to the spectacle-wearer hitherto unknown.

2. **How to select Glasses. It requires** professional guidance even when a good article is offered. Dr. Bernhardt not only has the best Glasses that can be found in the market, but carefully examines the eyes of his patients, and gives indispensable advice as to the proper selection of them.

3. **When the eyes ache or pain through** the action of a bright light, such as is reflected from the snow, sunny weather, white paper, and in reading, writing or sewing, or vivid colored bodies; these lenses, by softening the rays, effect a most agreeable sensation, and give great relief.

4. **These spectacles are scientifically** adjusted to every case of defective sight with unerring accuracy, whether arising from age, strain, over work, or premature decay, by Dr Bernhardt on a new and exact principle, entirely his own, which has seldom failed to be correct.

5. **After several years of public practice,** adjusting spectacles to patients under every aspect of defective sense, as well as experience in an extensive, long established business in his Optical Stores, both here and in Europe, Dr. Bernhardt considers it a sufficient guarantee of his ability to supply such glasses as are best calculated for the assistance of imperfect sight.

Dr. M. Bernhardt, to signalize himself from the host of pretenders in his profession, with pride submits for inspection, copies of testimonials he has received from medical gentlemen of the most unquestionable respectability and talent in America; also a number of certificates from well known gentlemen of distinction who have used his spectacles—the originals of all which he will be happy to show to those who may request it. The use of any of the following names or certificates hereunto affixed, without an actual possession of the same, would be a forgery, a capital offence, punishable by State Imprisonment.

Testimony of Recommendations from Medical Gentlemen, Professors of the highest Opthalmic talent in Raleigh, N. C., and in the Union

Raleigh, Aug 24, 1869.

I have carefully examined Prof. Bernhardt's Spectacles and take great pleasure in recommending him to those who, having defective vision, can be made to see more clearly and distinctly by the use of glasses. He has wonderful skill in this respect. The pair he has supplied me with are of Brazilian Pebble, of most superior quality and excellent finish. They enable me to see how to read, or write, at the ordinary focal distance, as clearly and distinctly as I did twenty years ago. I very cheerfully bear testimony both to the Professor's skill and to the wonderful properties of his glasses.

CHAS. E. JOHNSON, M. D.

Raleigh, N. C., Aug. 24, 1869.

I take great pleasure in saying that the Glasses I have obtained (and am now using) from Dr. M. Bernhardt are to me a source of greater comfort than any I have previously used; my own experience fully sustaining the testimonials of excellence and commendation which he has received from gentlemen of science, and high character, in various parts of our country.

WM. G. HILL, M. D.

Raleigh, N. C., Aug 24, 1869.

I take pleasure in stating that I have examined the glasses of M. Bernhardt, Oculist and Optician, and think they are of the best material, and constructed on scientific principles. I would advise those in need of glasses to call on him.

Very respectfully,
F. J. HAYWOOD, M. D.

Raleigh, Aug. 24, 1869.

Doctor Bernhardt called at my house and exhibited to me his fine assortment of Australian Crystal Glasses, which are of a very superior quality and workmanship. I take pleasure in saying that the glasses I have obtained from Professor Bernhardt are to me a source of greater comfort than any I have previously worn and cheerfully commend them to those who may be in need of glasses.

W. H. McKEE, M. D.

Raleigh, Aug 25, 1869.

After an attentive examination of the various glasses in the possession of Dr. M. Bernhardt, accompanied with his explanation of his mode of preparing and adjusting them, it is with great pleasure I state my belief of his great skill, and of the benefit which those needing glasses must derive from his assistance.

R. S. MASON, D. D.,
Pastor Prot. Episcopal Church.

Raleigh, Aug. 25, 1869.

Dr. M. Bernhardt, Oculist and Optician, has fitted me with a pair of spectacles superior to any article of the kind I ever had before. The material is Australian Crystal, the quality of which renders vision very clear and distinct, and enables me to read and write with as much ease as I did ten or twelve years ago. His assortment of glasses is most complete and the finish apparently perfect. I take great pleasure in recommending him to all who need their sight improved.

DRURY LACY, D. D.,
Late Pres't. of Davidson College, N. C.

Raleigh, Aug. 26, 1869.

It gives me pleasure to bear witness to the extraordinary value and excellence of the glasses prepared and furnished by Prof. Bernhardt. To those who need artificial aid for their vision he will be of the highest service.

I have examined a large number of the glasses of Prof. M. Bernhardt, and with pleasure certify to their superior excellence. I wear a pair of them and see as perfectly as I could in my youth. They are the best I ever used, and I therefore heartily recommend him to the patronage of the public.

EXECUTIVE DEPARTMENT,
Columbia, June 19th, 1866.

SIR: I have made a full and satisfactory test of the Spectacles procured from you, and I have the pleasure to say that the glasses are better adapted to my eyes than any I have ever used. The facility with which you fitted the glasses to my eyes, furnished me conclusive evidence of your scientific skill in optics and your thorough experience as an Oculist.

Your attainments in your profession entitle you to the confidence, patronage and gratitude of the public.

I have the honor to be,
Very respectfully yours,
JAMES L. ORR,
Governor of South Carolina.
Prof. MORRIS BERNHARDT, Charleston, S. C.

Wilmington, March 31, 1866.

I have examined a number of Professor Bernhardt's Glasses and am now using a pair of them and take pleasure in testifying that they enable me to see better than any others that I have used, while in his collection there seem to be some adapted to remedy any kind of defect in vision.

THOMAS ATKINSON,
Bishop of North Carolina.

Nashville, April 27, 1867.

The difference between Dr Bernhardt and most Opticians is, according to my observation, that while they pretend to more than they know, he knows more of his business than he professes.

SCHOOL BOOKS.

UNIFORM SYSTEM OF

TEXT-BOOKS

FOR NORTH CAROLINA.

Office Publishers' Sup't of Introduction,
RALEIGH, N. C., Sept. 21, 1869.

A DEPOSITORY has been established at Raleigh, in charge of Mr. Alfred Williams, for the following books, which were adopted Aug 9th, 1869, by the State Board of North Carolina for uniform use in the Public Schools:

PARKER & WATSON'S NATIONAL PRIMER.
PARKER & WATSON'S NATIONAL SPELLERS.
PARKER & WATSON'S NATIONAL READERS.
DAVIES' ARITHMETICS.
MONTEITH & McNALLY'S GEOGRAPHIES,
MONTEITH'S YOUTH'S HISTORY OF THE U. S.
REED'S SYSTEM OF PENMANSHIP.

THE NEW DESCRIPTIVE GEOGRAPHY OF NORTH CAROLINA will be ready about the middle of October next. The maps, &c., are now being engraved as rapidly as possible. This work will be furnished with Monteith & McNally's Series, without extra charge.

PROF. JEROME ALLEN'S COMPLETE SYSTEM OF MAP DRAWING will also be furnished to the Public Schools with Monteith & McNally's Series, without extra charge.

The books will be supplied at exceedingly low rates to the Public Schools in the State.

Similar terms will be made accessible to private schools adopting the above named books uniformly.

Pupils attending the Public Schools will, in accordance with the State contract, be furnished with new copies of Monteith & McNally's Geographies and Davies' Arithmetics in exchange for old copies of Cornell's Geographies and Quackenbos' Arithmetics, which they may possess.

Books will be supplied, carefully packed and shipped, by
ALFRED WILLIAMS,
Depositary, Raleigh, N. C.

Teachers and Educators generally are respectfully invited to correspond with
C. W. LAMBETH,
Agent for the Publishers
and Sup't of Introduction.

From Dr. WM. B. HASSELL, Prin. High School, Snow Hill, N. C.:

SNOW HILL, N. C.

"I am much pleased with both the Spellers and all the Readers; and as to the series of Geographies by Monteith & McNally, I have long used no others when these could be obtained.

From Rev. ALBERT SMEDES, D. D., Rector of St. Mary's School, Raleigh, N. C.

RALEIGH, N. C.

I have examined the Geographies—Monteith's [No. 4] and McNally's [No. 5] and find excellencies in both, which eminently entitle them to a wide circulation. It is my purpose to introduce Monteith's [No. 4] into my school. I give it the preference for the information which it gives on the subject of Physical Geography. The maps and questions in both works seem to me to be admirable.
ALBERT SMEDES.

From J. W. GULICK, A. M., Prin. Male Academy, Goldsboro', N. C.:

GOLDSBORO', N. C.

I find your books are in use in many Schools in this section. The teachers speak in the highest terms of your Readers and Geographies, and of Peck's Ganot in particular.
J. W. GULICK.

From Col. WM. BINGHAM, Prin. Bingham School, N. C.

The introduction of so much valuable matter on the subjects of Physical Geography and Geology, and in a form so simple and intelligible, makes it (Monteith's Intermediate Geography) in my judgment, a charming school book.

"We shall introduce Davies' Bourdon, perhaps others of your books."

From Dr. CLOSS, Prin. Durham Academy, N. C.:

DURHAM, N. C.

I design introducing the present session McNally's Geography and Davies' University Arithmetic; also Boyd's Elements of English Composition.
M. CLOSS.

From M. L. LITTLE, Esq., Prin. Pleasant Hill Seminary, Newton, N. C.

NEWTON, N. C.

Will introduce the University Arithmetic next term. Have examined it with much satisfaction. An admirable work.
M. L. LITTLE,
Prin Pleasant Hill Seminary.

From Rev. S. IVEY, Prin. Auburn Academy, N. C.:

AUBURN, N. C.

Monteith's Geographies are excellent works, and I shall introduce them into my school.
STINCEON IVEY.

Prof. WM. A. OBERHAIN, writing from Hillsboro' Military Academy, says:

The superior and durable style of binding of your works is a very great recommendation—one with which I have long been favorably impressed.

From J. E. DUGGER, Esq., Prin. Male Academy, Warrenton, N. C.

WARRENTON, N. C.

"Davies' Mathematics" was adopted by me in 1858, and, up to this time, I have examined no works superior to them as a whole.

I have examined, with a view of introduction, "McNally's Geography" [No. 5] and "Peck's Ganot's Natural Philosophy." I consider them most excellent works, and shall put them in my boys' hands, at the earliest period. The Philosophy is truly an enticing work and must meet with universal commendation.
J. E. DUGGER.

From W. C. KERR, State Geologist of N. C.

I regard Monteith's Physical and Intermediate Geography as one of the best books of its kind. It has several points of superiority over most primary Geographies; not the least of which, especially in the eyes of the juveniles, will be found in its attractive and very graphic illustrations. Another is the truly wonderful amount of substantial and really scientific information contained by those wood cuts, and the concise and lucid descriptions appended. But the chief excellence consists in this, that Geography is here treated from the only true and rational standpoint, viz: of Geology and Physical Geography; so that the learner arrives, by a natural and easy process, at the true conception of the earth as an organized whole; the designed result of successive changes and modifications, under the control of physical laws, constituting a true growth from a chaotic germ through manifold stages of progress, all pointing forward to its destined end as the home of living beings, and finally of man.

From Rev. G. D. BERNHEIM, Principal of Mount Amoena Female Seminary, Mount Pleasant, N. C.

MT. PLEASANT, N. C.

I have introduced your National Series of Readers with great satisfaction to myself and to our teachers. We find them to be excellent, just suited to our purpose.

With Davies' Mathematical Series we have been long familiar, and can find no good reason for changing them.

In the Primary Department we have Monteith's Geographies, and in the advanced classes we have introduced Peck's Ganot, with much acceptance.
G. D. BERNHEIM.

From Prof. JOS. H. FOX, President Stantonsburg Scientific High School, N. C.

WILSON, N. C.

I have carefully examined the claims of the different Series of School Books most prominent before the public at this time. I have tested the merits of many of them in the school and lecture room, and feel no hesitancy in pronouncing the "National Series of Readers and Spellers" the best with which I am acquainted. I shall henceforth use no others in my school, and I shall furthermore use my influence to secure their adoption into other Seminaries in this section.

I use Davies' Mathematical Series in my school. I consider his works incomparably superior in many particulars, even to Stoddard's Course, which is saying a great deal. In fact, I consider it the highest encomium in my power to bestow.

I use Monteith's Series in my school. They afford a gradual but thorough and systematic progression, from the simplest rudiments of science, up to a development sufficiently exhaustive for all ordinary educational purposes. Their very superior merit has led me to discard ——— which stands next best on the list.

McNally's, the fifth book of the course, is decidedly the *chef d'oeuvre* of Geographies. No competent instructor can examine it for an hour without being struck with its extraordinary merit.
J. H. FOY

From the Statesville, N. C. *American*, February 20th, 1866.

We would call the attention of Teachers in Western North Carolina to the valuable School publications of this firm, which are equal to any in the Union.

Messrs. Barnes & Co., of New York, are now issuing large editions of these Standard School Books for the Southern States. THE UTLEY

COTTON PRESS.

A NEW combination of power, whereby all friction is overcome. The simplicity, economy and durability of this PRESS astonishes all who see it, and the more so that a power so simple should so long have been unappreciated. With this Press, two men can do all the packing or pressing of a 500 pound bale inside of eight minutes: and it can be readily taken down and transported, as it is simple and light. We can supply these Presses cheaper than any yet offered to the Planter. Will send circulars to any desiring and we would advise all persons wanting presses to withhold buying until they examine this.

THE PRESSES are now being manufactured at the SASH AND BLIND FACTORY OF THOS H. BRIGGS. All are assured that as between this and any other there is no argument as to its merits over all others. With the irons, any ordinary workman can put them up. The patentee is here for a few days, and will take pleasure in explaining its merits.

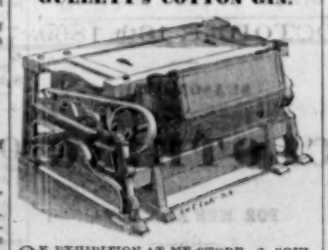
GULLETT'S COTTON GIN.



ON EXHIBITION AT MY STORE, A "GULLETT'S STEEL BRUSH GIN."

The Gin is of a very superior style of workmanship, gins more Cotton in a given time than any Gin of the same number of saws; picks the seed cleaner; leaves no motes or nap; does not waste the lint by throwing it over the walls of the room where it is being ginned; does not cut the lint, but brings it out in beautiful bats.

Planters desiring Gins would do well to buy one of Gullett's, as each one is guaranteed, and if it does not have the advantages, over other Gins, named in this advertisement, after fair trial, it will be no sale.

The "Gullett Gin" has been awarded the Premium at the several STATE FAIRS of Louisiana, Alabama and Mississippi.

And $5,000 ready to pay a loss of No. 34,161, so soon as the party authorized to receive the money appears.

The Company has been well tested throughout the State, as to its promptness in paying her losses, reliability, &c.

DIVIDENDS PAID AT THE END OF THE FIRST YEAR, AND ANNUALLY THEREAFTER.

Its ratio of expense to income is extremely low. This may be seen by reference to the Official Reports for 1868. For example:

EXPENSE ON THE $100 RECEIVED.

KNICKERBOCKER,	$16,54
EQUITABLE,	17,44
NORTH AMERICA,	21,16
BROOKLYN,	21,09
UNIVERSAL,	27,34
JOHN HANCOCK,	18,27
THE NATIONAL,	63,48
THE ÆTNA,	13,41

It has an IMPORTANT NEW FEATURE that has been copy-righted. According to this plan the rates are MUCH LOWER than in any other Company in the world.

Its ratio of Mortality is low. Its rates are very low. Its expenses are very low. Its dividends are large.

It insured more lives in the City of New York in 1868 than any other Company, except one. It issued more Policies in the United States than any other save one. It insured more lives in Canada than any other Company, British or American.

See what the HIGHEST INSURANCE AUTHORITY in this country says. In the June number of the *Insurance Times*, of New York, the following opinion was expressed:

"If there is any great benefit in mutual association, any great advantage to be derived from scientific organization and a chartered source, tending to mitigate the sufferings, lessen the privations, and add to the peace, security, and happiness of humanity, we are prepared to show that these blessings flow, in all their fulness and purity, from this excellent, powerful, and flourishing Company, the ÆTNA LIFE, of Hartford."

"No institution has brought more prompt, full, and grateful relief to the hearths of the bereaved and desolate, and none has been more uniformly distinguished for the enterprise, wisdom, and equitable liberality with which it has fulfilled the purposes of its formation."

"Its success has been almost unbounded and beyond all precedent. Eight years ago, in 1861, it issued only 589 policies, received an income of seventy-eight thousand dollars, and possessed nett assets summing up to something over two hundred and eighty-one thousand dollars; but last year, 1868, it granted 13,377 new policies, more than any other Company, except the Mutual Life; received an income exceeding six million dollars, and had amassed solid, securely and profitably invested nett assets amounting to over Ten Million Three Hundred and Fifty Thousand Dollars. And this wonderful ratio of growth has been sustained in 1869."
